Bibliografia, Bibliometria e Valutazione della Ricerca

Bibliography, bibliometry and research evaluation

Prof. Gianluca Iezzi

Hours 4 - 0.5 cfu
Classes will be in English
Compulsory attendance

ABSTRACT

This short course focuses on the main digital bibliographic and bibliometric tools, which are also used to perform research evaluation. The main commercial databases, SCOPUS and WoS, will be considered. The PhD students will learn how to find key papers for their research topics and their impacts and/or ramifications; in parallel, the most common parameters to measure research outputs will be analysed and discussed. The ongoing VQR-2020-2024 national evaluation process will also be considered.

OBJECTIVES

- 1) familiarisation and bibliographic analyses with SCOPUS and WoS databases,
- 2) evaluation of academic research outputs.

✉ **Register by** sending an email to:
tea.taraborelli@unich.it

place: Aula informatica II level, Ex-Rettorato, Campus Via Dei Vestini 30, 66100, Chieti.
